The **MS2** and the **MS2-HID**.

Exterior Cabinet Dimensions: 7" High x 8" Wide x 10" Deep

Weight: 15 lbs.

Finish: Powder Coating

Color: Black

Material: 10 and 12 gauge steel

Locking Mechanism: Single 600 lbs. lock

Voltage: 12 Volt DC current draw- 20mA idle, 130mA active

Combination Biometrics, PIN Pad and Proximity Card Reader:

The MedixSafe **MS2** is a truly revolutionary and compact narcotics cabinet. It is equipped with a stand-alone networkable TCP/IP based controller and is designed to require combinations of fingerprint, PIN and/or Proximity Cards to gain access. This allows the **MS2** to store up to 30,000 users and a 50,000 event activity log. The **MS2** can also connect directly to a wireless communication device at 100 Mbps, which allows it to have fingerprint additions/deletions and user activity uploaded/downloaded without having to go directly to the ambulance. Hardwiring to an existing network for additional office/storage locations is also an option. **The MS2 cannot be compromised just by watching someone else enter their PIN number!**

Mounting: **MS2** unit mounting via 3/8 holes on bottom or customized holes for either side or top.

Software: The MedixSafe **MS2** is an access control solution that is easy to manage from any computer. The software comes with the following features:

1. Interactive embedded help screen
2. Intuitive icons
3. Descriptive, easy-to-understand information
4. Well organized menu and programming for fast setup

Hardware: Customer's existing PC or lap top.

Non Wi-Fi Communications: A TCP/IP connection will need to be provided for remote administration and communication to the **MS2**.
