

CONNECTS DIRECTLY TO ANY ACCESS CONTROL PANEL

KARE XL

(Key Access Ready Enclosure)

The **KARE XL** (Key Access Ready Enclosure) is a self-contained key control cabinet with a multiclass card reader built into the electronic lock. It provides a Wiegand output so it can be connected to any access control panel.

The KARE XL integrates into ANY existing or new access control system. The KARE XL has a key storage capacity of 192—224, depending on configuration. The KARE XL comes with 224 colorful key tags with large clear windows for labels.

Security & Organization

Make your key cabinet more than a place to store your keys. Take control by limiting access to authorized users only. Know for sure who has accessed your keys and when.

- ◆ Multiclass card reader that accepts 125 kHz Prox, EM/RFID, HID 125kHz, HID SE, HID IClass, HID IClass Seos, and more
 - ◆ Wiegand Output
 - ◆ Polymer Swing Handle Lock
 - ◆ Re-Printable Key Tags
 - ◆ 14 Gauge Steel Cabinet
 - ◆ Remote Unlock
 - ◆ Emergency Key Override

TECHNICAL SPECIFICATIONS

Dimensions:	Enclosure (H x W x D) 36" x 14" x 9"
Locking Device:	Electronic Swinghandle with Proximity Card Reader and Key Override
Storage and Backup:	All event transactions, cardholder data and system control parameters are stored in the panel onboard nonvolatile memory. All data will remain intact, even if the system experiences a power failure.

Beautiful Re-Printable Key Tags Included

Included are 224 Key Tag Holders which can hold multiple keys or a set of keys. Each key tag snaps open so that names and/or numbers of keys can be inserted.

An Excel template is included for printing labels. When a different key is placed on the tag a new label can easily be printed and installed. The Excel template also allows changing label fonts and sizes.
